## SAFETY COMMITMENT

- Believes in maintaining a safe and secure work environment.
- Performs background checks, drug screening, and refresher trainings routinely.
- Performs onsite safety inspections at random to ensure our crews are always compliant during project completions.

QCS has contracted with two seasoned industry safety experts to oversee, organize, and design trainings. These trainings include, but are not limited to: MSHA Part 46, MSHA Part 48b, OSHA 10 hour, DMME, Aerial Lift training, Fork Lift training, Fall Protection training, Rigging and Lifting training, Lockout-Tagout training, Job Safety Analysis, Daily Toolbox Meetings and 50+ other safety modules.

We as a company understand that this type of training and experience allows you, our customer, the confidence that we will perform our duties in a proficient and safe manner.

We comply with all plant level site-specific training in addition to our industry standard and QCS-specific training.

### SAFETY IS OUR NUMBER ONE PRIORITY!

We invest heavily in outfitting our crews with best in class safety equipment to ensure every job complies with ours and YOUR expectations.
